Wynkoop's Iceland Pectoral.

Decreases the throat, chest and pulmonary organs, are ever prevalent, insidious and dangerous. The properties of a medicine to alleviate, cure and uproot those complaints, must be expectorant, sudoretic and invigorating, loosening the mucus of the throat, and impelling some to the entire system. No discovery in medicine has been more salutary than that of this article like Dr. Wynkoop's Iceland Pectoral. It is used with the most astonishing results in all cases of bronchitis, asthma, whooping cough, diphtheria or purulent sore throat, asthma, croup, colic, colds, nervous irritation, &c.

The Rev J. J. Potter certifies that "I have used Dr. Wynkoop's Pectoral for several years, myself and in my family, for severe pulmonary complaints, and have recommended it to many others, and have never seen its equal." Rev. J. J. Potter, Brooklyn N.Y.

Highly important testimonials can be produced, showing its remarkable effects, and that it never fails.

It is composed of pure Iceland Moss, Balsam of Gilead, Peruvian Balsam, Elecampane, Camphry, Birch, dock, and other invaluable expectorants and tonic-astringents, and smoothes cannot afford to neglect a trial.

Every family should have it. It is remarkable for its simplicity, full descriptions, recommendations and directions accompany each bottle.

Send to Dr. W. W. Stewart and all principal druggists.

Prepared by Dr. R. D. Wynkoop, and sold by J. H. Barnes & Co., New York.
